

I have heard many times how someone just happend to be listening to KLOVE as they were contemplating suicide, and did not because they heard that GOD cared about them and they could call their 24 hour prayer line. It is stories like this and many others that make me believe that KLOVE is a true asset and nessesity in our communities. This station is the only one I dont have to worry about hearing something bad that a child may hear. If there is no KLOVE we risk losing many lives physicaly and spiritualy. I urge you to leave KLOVE on the air on our current FM translater.
